Viktor Yadelskyi

Software Engineer | Frontend Developer

Lviv, Lviv, Ukraine

Summary

I have a master's degree in computer science and more than three
years of web development experience. I'm experienced in building
and maintaining responsive websites. I possess proficient knowledge
of main frontend technologies: JavaScript, React, React Hooks,
Redux; Also I know how to work with: CSS preprocessors (SASS/
LESS),Bootstrap,FlexBox, Grid, Ajax, npm/yarn, webpack, and
Git. For all of my works, I have maintained one common thing,
i.e, cleanness. My code is always well structured so that any child
can easily follow along with it. Finally, I try to think of the targeted
audience and code accordingly by fully understanding the flow and
logic.

Experience

EPAM Systems
2 years 3 months

Trainee Software Engineer
February 2023 - Present (1 year 2 months)
Lviv, Lviv, Ukraine

Student Software Engineer
January 2022 - February 2023 (1 year 2 months)
Lviv, Lviv, Ukraine

Freelance
Frontend Engineer
July 2021 - October 2021 (4 months)

I took part in a short-term commercial project in the e-commerce domain. My
responsibilities included creating markup and writing front-end logic by using
React.
The team had 2 FE devs (including me) and 1 BE.
Main technologies used by me: TypeScript, React (with hooks), CSS
preprocessor (SCSS), Webpack.
